Hello Paul and Valerie: FYI (I forgot copy you on the original message).  
My apologies. Charles

Barb, thank you for the editing and suggestions re Alerts; they make good sense. We will send this revised version to the site with the final software configurations.

FYI, based on my brief conversations with people in Phoenix, they seem to be quite comfortable with the program, already. (It's always a gamble dealing with resistance to change. The MDS staff seems to be up to it).

Responding to Maria's feedback: I attach suggestions on how to handle the IMMEDIATE late entries. I also include a few sample screens for the OTHER brands listings on the WatchPC screens (as discussed earlier), for the next studies.

I presume we will deal with these issues closer to the next trial. However, I suggest that we allow more time for testing of the next program, the luxury we didn't have for this study.

Again, thanks for your invitation to present the real thing on the 17th. See you there.

Charles

Charles,

Looks perfect to me!

Kim

Hi,

This is the last section of the Coordinator manual with the Alert instructions. I would like to have your approval so that we can send it to Phoenix with the final version of the software, by next Monday.

I will bring a complete binder to Richmond.

Many thanks.

Charles
